**Asset Services Named To Top 50  
Fastest-Growing Businesses in Kansas City**

**OVERLAND PARK, KS** – The *Kansas City Business Journal* names Asset Services one of Kansas City’s fastest growing area businesses. The publication released on August 10 its list of the top 50 area businesses that saw the largest average annual revenue growth rate from 2015 through 2017. Asset Services is honored to be recognized among many well-known Kansas City businesses.

Each year the *Kansas City Business Journal* compiles a list of fastest growing area companies determined by a three year average annual revenue growth rate of the business. The *Kansas City Business Journal* states, “The Fast 50 is more than revenue-growth race results. The List includes some of the most promising young companies in the area – vetted by calculations covering three fiscal years.” The 2018 list features companies from a variety of industries including engineering, technology, retail, insurance, and financial services.

Scott Wyckoff, President of Asset Services, attributes the company’s rapid growth to a talented and professional workforce. “Our teams are professional, knowledgeable and efficient, which allows us to provide exceptional inventory results in much less time than our clients could imagine. Providing quality results with short turnaround time has built our reputation as the best in the business, and fueled our growth through repeat clients and referrals.”

**About Asset Services**

Asset Services, Inc. specializes in providing fixed asset inventory management solutions for organizations in a variety of industries including hospitals and healthcare, secondary and higher education, corporation and professional organizations, and all levels of government. Services include wall-to-wall physical inventories of fixed assets, physical audits of existing assets, and solutions for maintaining fixed asset inventories. A SBA Small Business based in Kansas City, Asset Services has performed inventories in all 50 states, 23 countries on five continents.
